	TX Splitter units	Rev. Date 20/01/08	Rev A 01

Phase 3 UK now offer cable splitter box assemblies in various configurations.

The latest addition to range is the TX unit.

The unit manufactured in a thick wall, non conductive material which is extremely rugged and offers high impact protection. It is also water tight for outdoor use and the system can be configured with one input connector - two output connectors, or one input - three output connectors.

The system uses PowerSafe™ connectors at ratings up to 800amp.

Key Features include:

- Facilitates Powersafe connector
- IP68 when mated
- Up to 800Amp operation
- High impact and durability
